

# Antares Consulting

PRESENTATION

---

Antares Consulting is an international consulting firm specialising in the healthcare sector, with the aim of being the reference in its field.

*Our mission is to partner with organisations in the health and social care sector to help them in achieving enhanced clinical, operational, strategic, and financial results.*

**Commitment  
to autonomy**

**Bold  
cooperation**

**Integrity in  
action**

Our specialisation in the health sector is powered by three strengths

**1**

Vision and international experience

**2**

Expertise across the healthcare value chain

**3**

Commitment to generating and disseminating knowledge

We take a cross-disciplinary approach  
to the sector's major challenges

*Our performance is characterized by flexibility and proximity to the customer*

For over 25 years, we have been working for all types of organisations specialising in health, life sciences and social and health-related services.

*Our deep industry knowledge ensures that we can offer a tailored solution that prioritises client experience and achievement, making us stand out even more in the industry.*

**760**  
customers

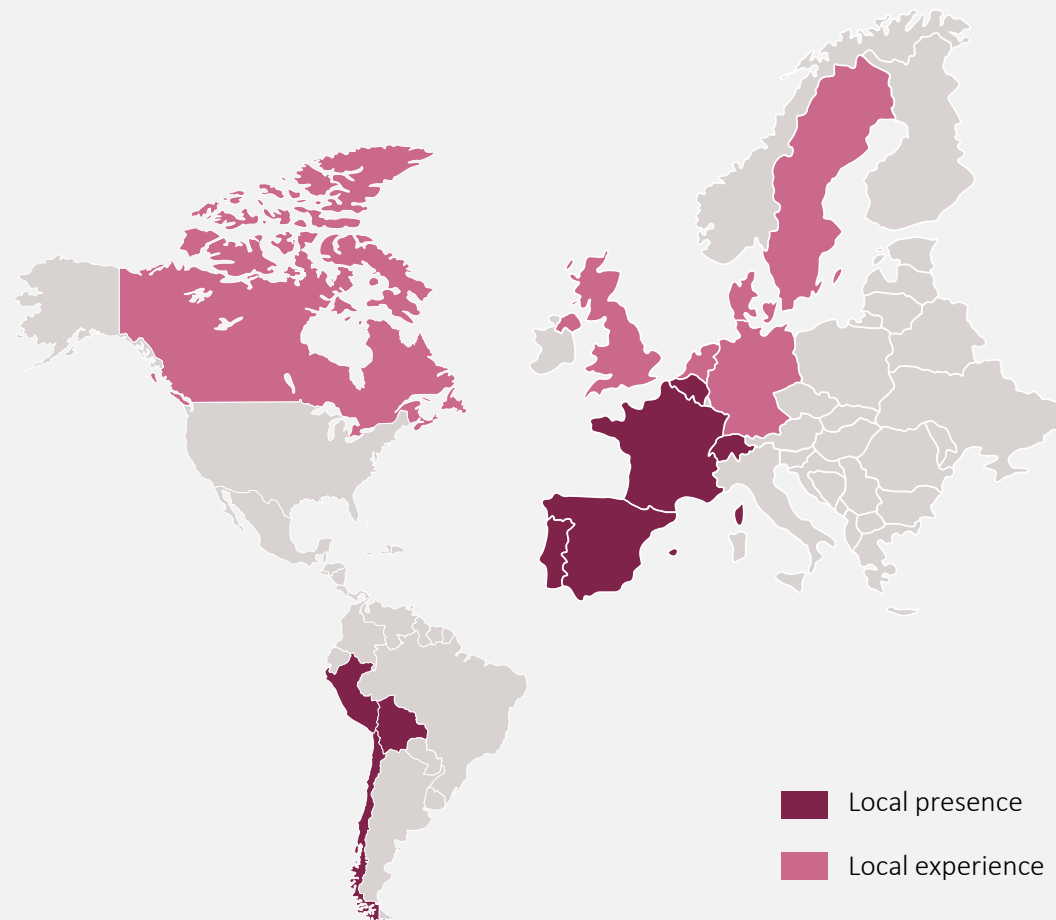

**27**  
countries

**3.000**  
projects

Our international DNA encompasses deep knowledge of health systems in our operational countries and similar contexts, including their unique challenges

**We have extensive knowledge of the health systems in the countries where we work but also, of the challenges posed by health systems in key comparable countries.**
